

# Protect your whistleblowers with our ultra-secure compliance solution

- Comply with European and national regulations that organize the implementation within companies of processes designed to collect reports of law violations by whistleblowers.
- SeeZam guarantees you ABSOLUTE confidentiality on an infrastructure strictly hosted in Luxembourg.

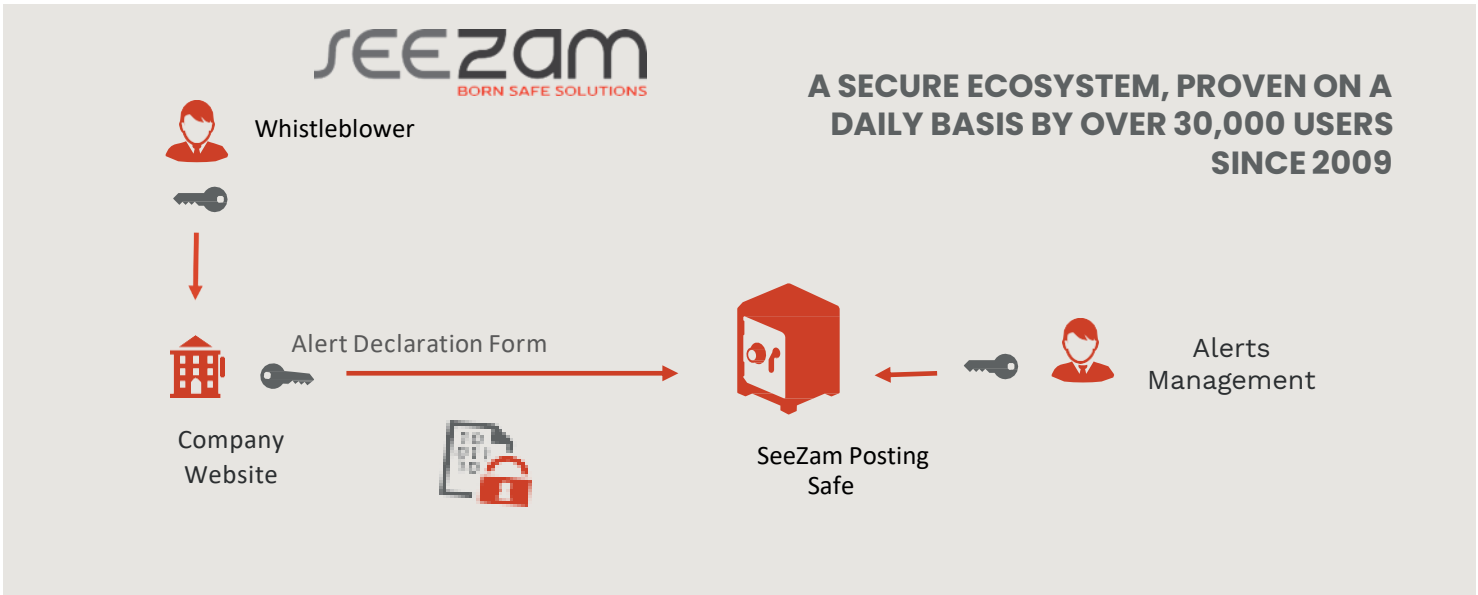

With the SeeZam whistleblower solution, benefit from nearly 15 years of expertise in the data protection and exchange sector, along with all the accompanying infrastructure. This way, you comply with the general data protection regulation (GDPR) and the whistleblower law with complete confidence, knowing that you are protected against any leakage of confidential information.

## THE LAW - WHISTLEBLOWERS

The new Luxembourg law on the protection of whistleblowers is a significant step in ensuring the safety and protection of individuals who report illicit practices or law violations. It comes into effect and applies to all companies with more than 50 employees, notably requiring the establishment of confidential reporting systems and the protection of the identity of the whistleblowers.

## SEEZAM'S CUSTOMIZED OFFER

With the SeeZam solution, you ensure the best protection available on the market. Our solution integrates seamlessly with your website and protects the exchanges and information that are the subject of reports. The whistleblower just has to follow a protected link, and their anonymity is guaranteed by the procedure, which doesn't even require an email address.

## 6 ADVANTAGES WITH SEEZAM

### A price that defies all competition

Control your costs with the fixed, clear, and predictable budget of the SeeZam solution, with a single cost, regardless of the volume of reports.

### An ultra-secure digital fortress

SeeZam offers the highest levels of security and privacy for all flows of confidential information.

### Compliant with the highest standards

Simply comply with the laws and other regulations in force with a 100% Luxembourgish solution.

### A secure process for the whistleblower

From end-to-end encryption to key management, only the whistleblower and the case manager have access to the exchanged information.

### Simplicity and ergonomics

You will be charmed by the very intuitive interface of the SeeZam solution and the simplicity of its implementation within your organization.

### A multilingual system

The SeeZam whistleblower solution is available in the three official languages and in English. The reporting form is in your language!

## A UNIQUE SOLUTION

Integration and customization according to your organization's needs.

Developed by security specialists, you benefit from Post Telecom PSF's ISO 27001 and 22301-certified hosting infrastructure and SeeZam support.

Hyper-security and bulletproof confidentiality for whistleblowers and your organization alike.

A user-friendly interface that's quick and easy to implement, and also takes into account all your compliance needs.
